

Therap is an Online Documentation and Communication Software System for Providers Supporting People with Developmental Disabilities.

- Therap Services, LLC. is a web-based service organization that provides an integrated solution for documentation and communication needs of agencies providing support to people with disabilities, especially developmental disabilities. It offers an easy and efficient alternative to the immense amount of paper work that is done manually by the care providers.
- Therap's benefits include its availability everywhere there is a computer or device able to connect to the Internet and run a web browser like Firefox, Internet Explorer, etc. To read a detailed account of how Therap benefits agencies, go to:
