Delaware's State Innovation Model (SIM) Update

December 3, 2015

Topics for discussion

Update on SIM activities

DCHI Board updates

Practice transformation support available for primary care providers

- **HCC has contracted with four vendors** to provide SIM-grant-funded practice transformation support; all Delaware PCPs are eligible to receive support
- Vendor(s) will provide a standard level of support, with a **curriculum tailored to each individual practice's needs**
- **DCHI and HCC are leading initial outreach** to practices, ACO/CIN, health system and professional society leaders; vendors will lead more targeted outreach with details on their support
- **Enrollment will begin this month, with support starting in early 2016**
- **Vendors are:**
 - MedAllies
 - MedNet/MSD and HealthTeamWorks
 - New Jersey Academy of Family Physicians and Delaware Academy of Family Physicians
 - Remedy HealthCare Consulting LLC
- **More information can be found at <http://www.dehealthinnovation.org>**

2016 SIM Planning

Details follow

Activities completed

SIM Operational Plan

- A **draft SIM Operational Plan for 2016** was submitted to CMMI on December 1
- Major components of the Operational Plan include:
 - Revised timeline, budget summary and core progress metrics
 - Detailed operational plan across SIM program areas

2016 Milestones

- As an input to the Operational Plan, **2016 Milestones were reviewed and revised** across all SIM Program Areas
- **Input on 2016 Milestones** was gathered from DCHI Board, Committees, DHIN and other stakeholders and incorporated

Health IT Roadmap

- A **Delaware Health IT Roadmap is being developed** as part of the ongoing SIM planning process
- The HIT Roadmap is being developed based on **expert and stakeholder interviews and national research**
- Elements of the roadmap have been shared with the DCHI Board, Committees, and at the Cross-Committee meeting for feedback

Delaware Health IT Roadmap topics

Elements of DE SIM strategy

Supporting health IT topics

Payment model and delivery system

- Aggregating claims-based information
- Clinical data access
- Provider data for the Common Scorecard
- Event notifications across healthcare system
- EMR adoption incentives for behavioral health
- Increased direct secure messaging
- Population health management analytics

Patient and consumer engagement

- Public tools created or linked from other sources to increase health literacy
- Consumer transparency into cost and quality information
- Equity and access for telemedicine
- Patient access to their health information

Research, evaluation and planning

- Public health planning through multi-payer claims aggregation
- Evaluation of healthcare transformation
- Datasets used to support SIM dashboard
- Datasets used to support community-level health goals for Healthy Neighborhoods
- Dataset interoperability
