# Classification of the Delaware Veterans Home and Its Impact on Bed Need Projections:

**Moving Forward** 

Delaware Health Resources Board August 28, 2014

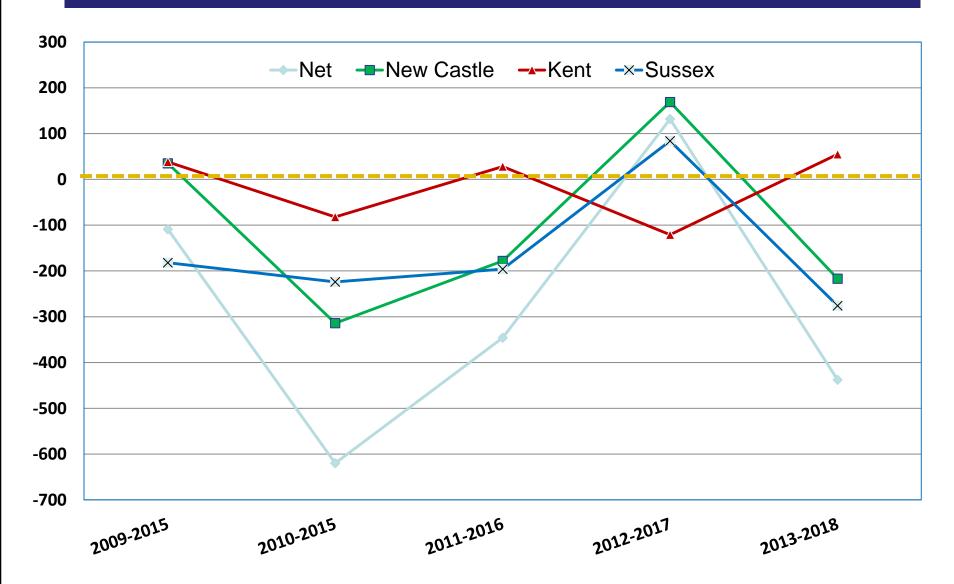

#### Why Discuss?

- DHCC collects annual surveillance data for all 47 nursing homes in the state
- Each year, the HRB uses these data to estimate future LTC bed needs

- Currently, LTC bed needs are calculated using the methodology outlined in Delaware's Health Resources Management Plan (HRMP) (adopted in 1995; last updated in 2010)
- The HRB is considering revising the methodology in an effort to obtain more meaningful LTC bed need estimates

What's the main drawback with the current methodology?

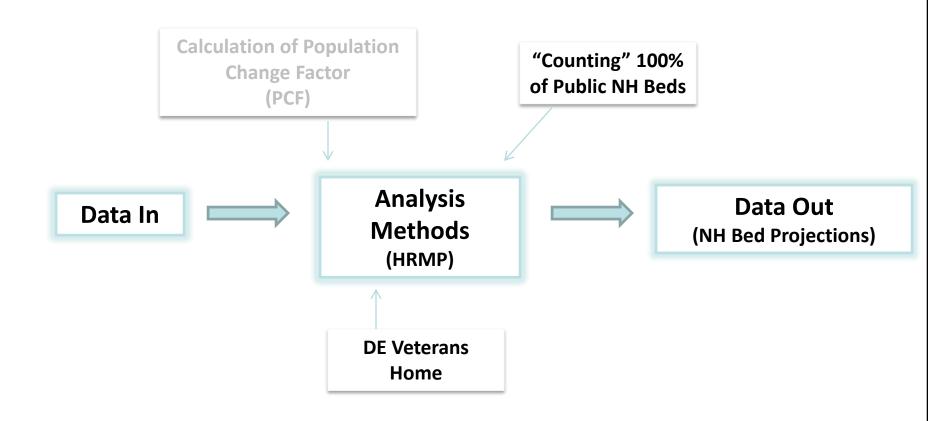

#### LTC Bed Need Estimates: Trends Over Time

#### Variability in Projections: Why So Much Fluctuation?

#### Variability in Projections: Why So Much Fluctuation?

#### Delaware Nursing Homes: A 2013 Snapshot

- In 2013, **47** NHs operated an average annual total of **5,107** licensed beds
- 44 out of 47 Delaware nursing homes are privately owned and operated
  - Private nursing homes accounted for 90% of all licensed nursing home beds in Delaware

NCC: 27 private + 2 public (Emily P. Bissell, Governor Bacon)

Kent: 6 private + 1 public (Delaware Hospital for Chronically III)

Sussex: 11 private

#### **Delaware Nursing Homes: A 2013 Snapshot**

Delaware's Public NHs are gradually reducing their numbers of available beds

Delaware Hospital for the Chronically III

• January – September 2013: N=397 beds

October – December 2013: N=205 beds

Emily P. Bissell Hospital:

• January – December 2013: N=**85** beds

Governor Bacon Health Center:

• January – March 2013: N=**94** beds

• April – December 2013: N=86 beds

#### **Delaware Veterans Home (DVH)**

- 2004: Delaware Assembly signed into law HB396; provided funding for facility construction (Milford, DE (Kent County))
- 2007: DVH opens to residents; operates as a privately owned, four-unit, 150-bed facility
- Three Eligibility Requirements (all must be met):
  - 1. Military Service:
    - Honorably discharged from active service (peacetime or wartime) or Any National Guard Service or Reservist who is eligible for retirement pay at age 60 and has served on active duty at least 180 days (does not have to be consecutive)
  - 2. Must have resided in the State of Delaware for 3 years or more prior to application.
  - 3. Must meet state requirement for having a nursing home level of care.

Nursing Home	Billable Patient Days 2013	Number of Licensed Beds (2013)	Weighted Occupancy Rate (2013)	
Kent County (Private)				
Capitol Healthcare	41,170	120	94.0%	
Courtland Manor	22,072	70	86.4%	
Delaware Veterans Home	44,978	150	82.2%	
Pinnacle Rehab	49,267	151	89.4%	
Silver Lake Center	40,583	120	92.7%	
Westminster Village	20,581	61	92.4%	
Kent County (Private)	218,651	672	89.1%	

 Unlike other private NHs in Kent County, the majority of 2013 DVH admissions were not Kent County residents

#### Percentage of Admissions by County and State of Residence, 2013

Nursing Home	NCC	Kent	Sussex	MD	NJ	PA	Other
Kent County (Private)							
Capitol Healthcare	0.0%	100.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Courtland Manor	4.4%	93.3%	0.0%	2.2%	0.0%	0.0%	0.0%
Delaware Veterans Home	22.4%	26.9%	50.7%	0.0%	0.0%	0.0%	0.0%
Pinnacle Rehab	12.6%	80.0%	3.6%	1.1%	0.2%	2.3%	0.2%
Silver Lake Center	1.2%	94.4%	3.2%	0.6%	0.0%	0.4%	0.2%
Westminster Village	3.8%	87.5%	5.0%	0.0%	0.0%	3.1%	0.6%
Kent County Total	5.6%	87.9%	4.5%	0.6%	0.1%	1.1%	0.2%

• In 2013, DVH had fewer admissions compared to other private NHs of similar bed size

Similarly-Sized Private NHs	County	# Licensed Beds	# 2013 Admissions
DE Veterans Home	Kent	150	67
Parkview	New Castle	150	171
ManorCare Wilmington	New Castle	139	549
Pinnacle	Kent	151	525
Harrison House	Sussex	139	284

#### **2013** Discharge Destination, by Percentage

Nursing Home	Own/Relatives Home	Acute Care Hosp	Asst Living Facility	Other Private LTC	State LTC	Death	Other
Kent County (Private)							
Capitol Healthcare	77.5%	8.0%	3.3%	3.3%	0.6%	7.1%	0.3%
Courtland Manor	44.2%	15.4%	0.0%	5.8%	0.0%	34.6%	0.0%
Delaware Veterans Home	11.1%	15.6%	2.2%	0.0%	0.0%	68.9%	2.2%
Pinnacle Rehab	33.5%	55.0%	1.5%	1.1%	0.4%	6.5%	1.9%
Silver Lake Center	64.7%	20.9%	5.3%	1.7%	0.0%	6.6%	0.6%
Westminster Village	45.3%	26.4%	13.8%	0.6%	0.6%	12.6%	0.6%
Kent County (Private)	53.0%	29.7%	4.2%	1.8%	0.3%	10.0%	1.0%

The DVH operates as a private NH facility

 As such, the DVH is classified as a private facility under current bed need projection methodology

Yet, it represents an "outlier" in terms of other Kent Co. private NHs

 Despite differences in number of admissions and the proportion of Kent County residents admitted, all 150 beds from the DE Veterans Home are assigned to Kent County as available private NH beds under the current bed need methodology

This inflates the picture of total private NH beds available to the general Kent
 County public and works to create a surplus LTC bed need scenario for the county

How can we address the unique situation (methodological challenge?) of the Delaware Veterans Home while calculating LTC bed need projections for Delaware?

- Three Methodological Scenarios:
- What happens if...
  - 1. DVH considered a **PRIVATE** facility when calculating future bed needs
  - 2. DVH considered a **PUBLIC** facility when calculating future bed needs
  - 3. DVH **EXCLUDED** from Delaware LTC bed need projections

- Three Methodological Scenarios:
- What happens if...
  - 1. DVH considered a **PRIVATE** facility when calculating future bed needs
  - 2. DVH considered a **PUBLIC** facility when calculating future bed needs
  - 3. DVH **EXCLUDED** from Delaware LTC bed need projections

**Note**: a potential change in the classification of the DVH refers the process of calculating LTC bed need projections, only. Actual designation of the facility will not change; the DVH will continue operations as a private NH facility.

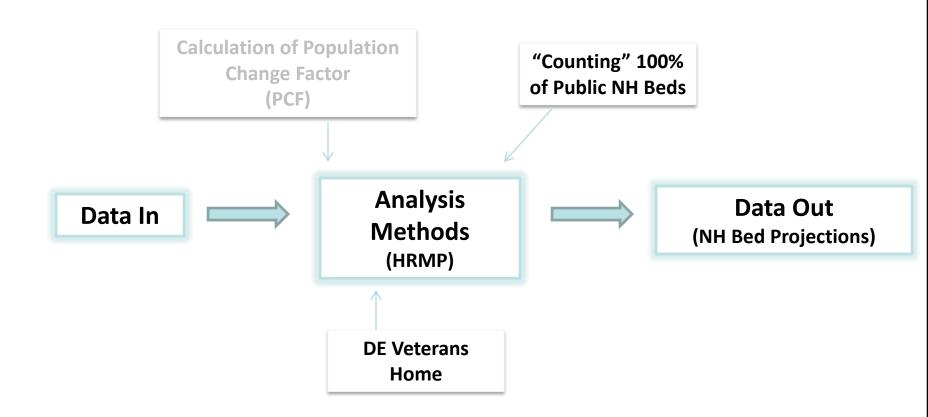

- Three Methodological Scenarios:
- What happens if...
  - 1. DVH considered a **PRIVATE** facility when calculating future bed needs
  - 2. DVH considered a **PUBLIC** facility when calculating future bed needs
  - 3. DVH **EXCLUDED** from Delaware LTC bed need projections

LTC Bed Need Projections Under Three DVH Scenarios

	Available Private Beds (Kent; 2013)	Available Public Beds (Kent; 2013)	Total Available Beds (Kent; 2013)	Projected Bed Need (Kent; 2019)	Projected Bed Need Shortage / Surplus (Kent; 2019)
Scenario 1: DVH Private	672	87	759	739	+24
Scenario 2: DVH Public	522	134	656	640	+16
Scenario 3: DVH Excluded	522	87	609	598	+11

#### Variability in Projections: Why So Much Fluctuation?

 How can we address the unique situation (methodological challenge?) of the Delaware Veterans Home while calculating LTC bed need projections for Delaware?

What happens if...

The LTC bed need methodology is completely re-vamped to address Delaware's specific NH facility situation (i.e., the DVH, reduction in the number of staffed public beds)?

HRB Sub-Committee

- 1. Annually determine nursing home utilization rates (beds per 1,000 population) by county by age group (<65, 65-74, 75-84, 85+)</li>
- 2. Annually collect projected (3 years out) population data by county by age group
- 3. Annually apply the age-specific utilization rates to the projected populations for each age group to determine projected utilization rate by county; add products across age groups to determine bed need total for each county

 4. Subtract projected bed utilization by county from existing inventory to determine bed surplus or shortage projected for that year

• 5. Use a five-year rolling average to determine final projected bed surplus or shortage for each county

 6. Annually collect occupancy rate data for each county – check county-wide occupancy rate to determine if they don't exceed 94%. For a county with a projected shortage of beds and an occupancy rate of 94% or above, the need determination is the projected shortage rounded to 10

#### Discussion
