Summary of January DCHI Board meeting

- DCHI Executive Director **updated Board on progress made towards DCHI operations and funding opportunities**
- Board re-elected Board Chair and Treasurer
- Board adopted a set of guiding principles on **DCHI Board and Committee operating norms**
-
- Approved the DCHI **Consensus Paper on Integration of Behavioral Health and Primary Care**
-
- Approved the DCHI **Consensus Paper on Healthy Neighborhoods Rollout Approach**
-
- Approved the DCHI **Consensus Paper on Care Coordination as an Extension of Primary Care**
-
- Reviewed a draft of the DCHI **Consensus Paper on Outcomes-Based Payment for Population Health Management**
 - Feedback on the paper was requested to be sent to the Chair of the Payment Committee

Context for Accountable Health Communities grant discussion

- CMMI released the **Accountable Health Communities** model grant which provides a **good opportunity to catalyze the Healthy Neighborhoods program**
- Current perspective is that **DCHI could play an important role in convening and bridging across stakeholders** to apply to the grant
- **DCHI submitted a (non-binding) letter of intent on Feb 8** and has been engaging with stakeholders to test interest, get input, and begin to build a coalition to apply
- Given the complexity and importance of the grant, the **goal for today** is to:
 - Provide an **overview of the grant**
 - Get **Board member input** on important questions DCHI would need to address

CMMI AHC Model Testing Grant summary (1/2)

Description				
Goal of grant	<ul style="list-style-type: none"> Test how addressing health-related social needs¹ of Medicare and Medicaid beneficiaries through awareness and navigation can: <ul style="list-style-type: none"> Impact health care costs Reduce inpatient and outpatient health care utilization Improve health care quality and delivery 			
	<ul style="list-style-type: none"> 5 year testing grant (Jan 2017 – Dec 2021) with 3 <i>Tracks</i> to test level of impact of <i>awareness, assistance, and alignment</i> of community service navigation 			
Structure of test grant	Tracks	Description	Funding, \$M	# of grants
	Track 1: Awareness	Increase beneficiary awareness of available community services through information dissemination and referral	1.0	12 grants
	Track 2: Assistance	Provide community service navigation services to assist high-risk beneficiaries with accessing services	2.6	12 grants
	Track 3: Alignment	Encourage clinical and community services partner alignment to ensure that access to available community services is optimized to meet the needs of beneficiaries	4.5	20 grants

¹ Social needs are defined as housing instability and quality, food insecurity, utility needs, interpersonal violence, and transportation needs beyond medical transportation

CMMI AHC Model Testing Grant summary (2/2)

Requirements	
Applicant role	<ul style="list-style-type: none"> Identify and partner with state Medicaid agency, clinical delivery sites (e.g., clinics, hospitals, behavioral health providers) and community service providers Conduct systematic health-related social needs screenings to 75,000 beneficiaries¹ Connect beneficiaries to community resources via referrals for identified unmet health-related social needs Assist beneficiaries with accessing community resources through community service navigation (Tracks 2 and 3 only) Partner with and align community service partners to optimize community capacity to address health-related social needs (Track 3 only)
Applicant eligibility	<ul style="list-style-type: none"> Community-based organizations, healthcare provider practices, hospitals and health systems, institutions of higher education, local government entities, tribal organizations, and for-profit and non-profit local and national entities with the capacity to develop and maintain a referral network with clinical delivery sites and community service providers
Application process	<ul style="list-style-type: none"> Mar 31, 2016 1PM ET – Formal application www.grants.gov Email: AccountableHealthCommunities@cms.hhs.gov

¹ Defined to be all Medicare and/or Medicaid beneficiaries, include children and adults covered under Medicaid through presumptive eligibility, and all community-dwelling beneficiaries that are dually eligible

AHC Model Structure

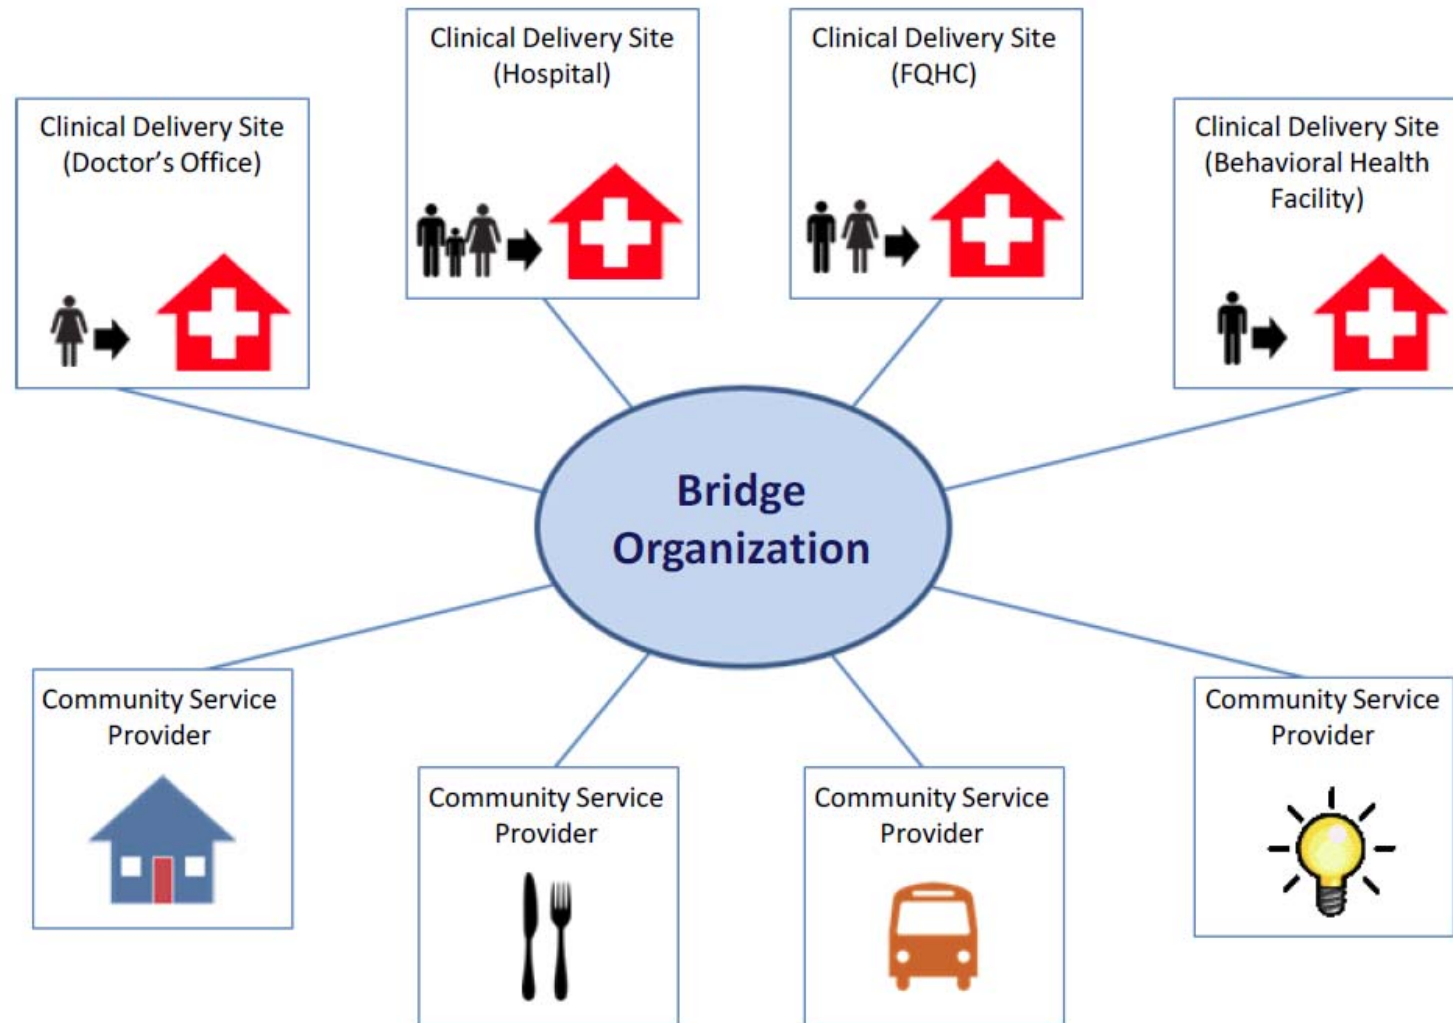

Figure 3. AHC Model Structure¹⁷

Considerations for the AHC grant application

FOR DISCUSSION

Context

Administrative requirements
(e.g., data and reporting,
financial capacity)

Operating requirements
(e.g., screen 75,000 Medicaid
and Medicare beneficiaries)

Considerations

- Can DCHI and its potential partners meet all of the administrative requirements of the grant (e.g., for financial tracking)
- How to identify a community(ies) that meet the requirement to be able to offer screening to 75,000 Medicaid and Medicare beneficiaries in a way that is consistent with the Healthy Neighborhood approach

Backup: Estimated Medicaid and Medicare lives per Healthy Neighborhood Community

■ 2016 proposed rollout

Communities	Population (2010)	Estimated Medicaid & Medicare lives (2010)
Wilmington/Claymont	99,000	40,600
Brandywine/Hockessin	77,000	31,500
Newark/Bear/Glasgow	109,000	44,600
Christiana/Pike Creek	103,000	42,200
New Castle/Red Lion	97,000	39,800
Middletown/Odessa/Townsend	49,000	20,100
Smyrna/Dover	103,000	48,100
Lower Kent	57,000	26,600
West/Central Sussex	130,000	72,000
Eastern Sussex	68,000	37,600
	892,000	403,100

Consensus Paper on Outcomes-based Payment

Paper for approval

Updates based on January Board and committee discussions (highlighted in green)

- Reference to need for risk sharing arrangements for providers beyond primary care (e.g., between payers and hospital systems) (pg 4)
- Increased reference to stakeholders consulted in the process of forming DCHI's perspective (pg 6)
- Recognition that independent physicians may need assistance to aggregate formally and reference to possible future role for DCHI in facilitating practice aggregation (pg 8)

Outcomes-based payment for population health management

Updates to the overall program dashboard

Prior feedback

- In November, we discussed the most recent version of the overall program dashboard and agreed that committee chairs should seek input from their committees
- In particular, there were questions on the design and operationalization of measures still in progress
 - Statewide provider satisfaction survey
 - Workforce measure
 - Consumer and patient experience measures

Approach for today

- Review of the proposed updates to the overall program dashboard measures
 - Overall provider satisfaction measured by a provider survey
 - Healthcare workforce participation in training as part of DCHI practice transformation support
 - Consumer engagement measured by independent consumer engagement survey
- Consideration of the overall program dashboard measures for approval

Revised: Draft overall program dashboard

		Metric
Overall Outcomes	Overall health	Overall health ranking
	Cost	Total medical and pharmacy expenditures
	Quality	Quality and efficiency of medical care provided to patients
	Provider satisfaction	Provider satisfaction as a leading indicator of participation in market
	Patient experience	Patient satisfaction with provider care and payers
Progress in DCHI program areas	Care delivery	Provider implementation of innovative care techniques
	Payment innovation	Availability and adoption of value-based payment models by payers and providers
	Healthy Neighborhoods	Coverage of Healthy Neighborhoods
	Workforce	Adoption of DCHI practice transformation support
	Consumer	Consumer engagement in their healthcare
