

Open Enrollment begins November 1, 2014 Program Changes in January 2015

Several changes will take place in the Medicaid program on January 1, 2015.

1. The Division of Medicaid and Medical Assistance will discontinue the Diamond State Partners (DSP) Program.
2. Delaware Physician's Care, Inc. (Aetna) will no longer be a managed care option in the Delaware Medicaid Program.

Two managed care plans will be offered to Medicaid and CHIP members.

- UnitedHealthcare Community Plan www.uhccommunityplan.com
- Highmark Health Options www.highmarkhealthoptions.com
- Starting with open enrollment, which began November 1, all Medicaid members will have the opportunity to select the MCO of their choice. All Medicaid-covered services will continue to be available regardless of the MCO chosen. MCOs will work collaboratively to ensure continuity of care, especially for those members with existing care plans.

Consumer questions should be directed to the **Health Benefits Manager at 1-800-996-9969.**
