

B21007

AGE BY VETERAN STATUS BY POVERTY STATUS IN THE PAST 12 MONTHS BY DISABILITY STATUS FOR THE CIVILIAN POPULATION 18 YEARS AND OVER

Universe: Civilian population 18 years and over for whom poverty status is determined

2010-2012 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

	Delaware	
	Estimate	Margin of Error
Total:	678,412	+/-520
18 to 34 years:	190,258	+/-762
Veteran:	5,226	+/-793
Income in the past 12 months below poverty level:	396	+/-219
With a disability	59	+/-56
No disability	337	+/-213
Income in the past 12 months at or above poverty level:	4,830	+/-744
With a disability	272	+/-171
No disability	4,558	+/-708
Nonveteran:	185,032	+/-1,079
Income in the past 12 months below poverty level:	30,728	+/-1,950
With a disability	2,261	+/-538
No disability	28,467	+/-1,882
Income in the past 12 months at or above poverty level:	154,304	+/-1,967
With a disability	8,477	+/-975
No disability	145,827	+/-2,047
35 to 54 years:	242,762	+/-533
Veteran:	19,438	+/-1,343
Income in the past 12 months below poverty level:	1,387	+/-446
With a disability	292	+/-159
No disability	1,095	+/-427
Income in the past 12 months at or above poverty level:	18,051	+/-1,369
With a disability	2,030	+/-417
No disability	16,021	+/-1,281
Nonveteran:	223,324	+/-1,362
Income in the past 12 months below poverty level:	19,110	+/-1,467
With a disability	5,569	+/-848
No disability	13,541	+/-1,165
Income in the past 12 months at or above poverty level:	204,214	+/-1,780
With a disability	17,771	+/-1,465
No disability	186,443	+/-2,134
55 to 64 years:	114,669	+/-310

	Delaware	
	Estimate	Margin of Error
Veteran:	17,033	+/-898
Income in the past 12 months below poverty level:	1,059	+/-307
With a disability	368	+/-213
No disability	691	+/-240
Income in the past 12 months at or above poverty level:	15,974	+/-876
With a disability	3,273	+/-419
No disability	12,701	+/-832
Nonveteran:	97,636	+/-955
Income in the past 12 months below poverty level:	8,259	+/-775
With a disability	3,372	+/-490
No disability	4,887	+/-640
Income in the past 12 months at or above poverty level:	89,377	+/-1,432
With a disability	13,821	+/-928
No disability	75,556	+/-1,577
65 years and over:	130,723	+/-357
Veteran:	32,739	+/-957
Income in the past 12 months below poverty level:	1,102	+/-290
With a disability	412	+/-165
No disability	690	+/-248
Income in the past 12 months at or above poverty level:	31,637	+/-935
With a disability	10,532	+/-740
No disability	21,105	+/-742
Nonveteran:	97,984	+/-973
Income in the past 12 months below poverty level:	7,839	+/-669
With a disability	3,274	+/-464
No disability	4,565	+/-525
Income in the past 12 months at or above poverty level:	90,145	+/-1,160
With a disability	27,812	+/-1,340
No disability	62,333	+/-1,417

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2010-2012 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to

compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
