

Goal: Improve access to oral health care and disease prevention for vulnerable adults. Vulnerable adult is defined as anyone, age 18 & older, who experiences barriers to care. Examples of vulnerable adult populations include: uninsured adults; adults with disabilities (physical, mental, cognitive); pregnant women; homeless adults (e.g. veterans, migrant workers); adults in correctional facilities.

C. Oakes/J. C.

Lee

	Description:	Desired Outcome(s)	Available Resources/Contacts	Add'l Resources Required	Estimated Impact (low, med, high)	Probability of Success (low, med, high)	Notes:
<b>Objective 1</b>	<b>Expand Medicaid Oral Health Coverage for Adults</b>	<b>All Medicaid enrollees have oral health coverage for necessary services</b>	<b>Partners have been identified and educated</b>	<b>Leader to coordinate follow-up activities</b>	<b>High</b>	<b>Low</b>	
<i>Strategy 1A</i>	<i>Stakeholder engagement and education</i>						
Task	Identify, share or create materials, approved by DPH, or distribute to partner groups and stakeholder organizations (for them to distribute to legislators and/or decision makers).						
<b>Objective 2</b>	<b>Provide additional outreach to and care for vulnerable populations</b>	<b>Adults without oral health coverage receive needed oral health care services</b>	<b>Engaged committee members</b>	<b>More time and bandwidth of committee members to pursue. Point person to coordinate efforts.</b>	<b>Medium</b>	<b>Medium</b>	
<i>Strategy 2A</i>	Promotion of existing services - DE Dental Health Resource Guide, dental clinics including those in state facilities, in FQHC's, what dental services MCO's are already covering, etc.						
Task	Disseminate information regarding all existing dental services and plans listed via the <b>Choose Health Delaware</b> / Health Marketplace to Navigators, Medicaid enrollment reps, Care Coordinators, libraries, applicable websites						
Task	Promote programs and resources that link individuals in need to existing OH services. Create new tools/materials as necessary						
Task	Disseminate information available to Medicaid beneficiaries before individual's transition from child/youth to adult Medicaid. Partner with DMMA to get Medicaid Care Organizations (MCO's) involved.						
Task	Explore expansion of DHCI use of non-Medicaid funds for oral health services.						
<i>Strategy 2B</i>	Explore potential opportunities to expand and improve oral health including through use of the DPH Dental Van, state facility clinics and teledentistry to reach vulnerable adult populations						
Task	Explore use of the Stockley dental facility for vulnerable populations						
Task	Expand DHSS' telehealth program to include dental services and professional education to meet community needs and address gaps in care						
Task	Explore expanded use of dental van.						
Task	Explore opportunities provided by additional mobile companies coming to the state.						
Task	Explore additional ways to provide fluoride varnish for adults, including in long term care						
<b>Objective 3</b>	<b>Develop oral health surveillance system screenings and data gathering for complete system of care</b>	<b>Gather basic data about access to care and utilize it to expand coverage for vulnerable adults</b>	<b>Jae Chul Lee of Center for Disabilities Studies</b>	<b>Additional funding to support the researchers' work</b>	<b>Medium</b>	<b>Low</b>	<b>Additional funding may be difficult to obtain</b>
<i>Strategy 3A</i>	Identify existing Oral Health Surveillance System or data gathering for oral health in Delaware						
Task	Identify & review available data sources &/or systems for collecting OH data						
Task	Identify # of individuals enrolled in Medicaid and the # of beneficiaries who receive dental services through existing Medicaid plans in collaboration with DMMA						

Task	Review and complete DE dental survey(s) conducted by DHSS national/state partners (e.g. NASUAD) and disseminate the follow-up reports						
Strategy 3B	Identify & review other states' Oral Health surveillance systems and plans						
Task	Review available sources						
Task	Attend available webinars						
Strategy 3C	Raise the awareness of Oral Health among organizations planning for statewide health outcomes and quality improvement for vulnerable adults						
Task	Include OH questions in ALL health/social service surveys and assessments; and ensure inclusion of Oral Health in all state health-related plans						
Task	Reach out to appropriate contacts to share collected data						
<b>Objective 4</b>	<b>Research and Share Best Practices for Oral Health Promotion and Delivery for Vulnerable Adults</b>	<b>Dissemination of best practices for oral health promotion and delivery for vulnerable adults to interested organizations and stakeholder groups</b>	<b>Some of this work is being done as part of other projects/BOHDS efforts</b>	<b>Funding for staff or personnel to pursue</b>	<b>Medium</b>	<b>Medium</b>	
Strategy 4A	Research other states' oral health models & best practices for targeting vulnerable populations						
Task	Engage university health promotion/policy or dental hygiene students at UDel/DelTech to research evidence-based programs and policies in other states.						
Task	Attend webinars and perform additional research						
Task	Create and execute a campaign to share identified best practices						

Goal: Improve access to oral health care and disease prevention for vulnerable adults. Vulnerable adult is defined as anyone, age 18 & older, who experiences barriers to care. Examples of vulnerable adult populations include: uninsured adults; adults with disabilities (physical, mental, cognitive); pregnant women; homeless adults (e.g. veterans, migrant workers); adults in correctional facilities.

Task	Include OH questions in ALL health/social service surveys and assessments; and ensure inclusion of Oral Health in all state health-related plans							
Task	Reach out to appropriate contacts to share collected data							
<b>Strategy 7</b>	Research other states' oral health models & best practices for targeting vulnerable populations	Not assigned						
Task	Engage university health promotion/policy or dental hygiene students at UDel/DelTech to research evidence-based programs and policies in other states	HDWD providing some research efforts in this area						
Task	Attend webinars and perform additional research							
Task	Create and execute a campaign to share identified best practices							

**Goal: Improve access to oral health care and disease prevention for children.**

	<b>Description:</b>	<b>Desired Outcome(s)</b>	<b>Available Resources</b>	<b>Add'l Resources Required</b>	<b>Estimated Impact (low, med, high)</b>	<b>Probability of Success (low, med, high)</b>	<b>Notes:</b>
<b>Objective 1</b>	Promote oral health assessment and preventive care by pediatricians or family physicians for children by age 1	Primary care providers are trained and have appropriate tools to provide oral health care	Nemours, other providers who are already providing these services	Resources to execute county wide education events	High	Medium	
<b>Strategy 1A</b>	Support, promote and expand physician trainings						
Task	Arrange and host three county wide fluoride varnish CME educational events for primary care providers and dentists						
Task	Support on-going training efforts by sharing information and offering networking opportunities						
<b>Strategy 1B</b>	Have resources/technical assistance available with billing tips, IT support for EMR oral health assessment forms, and patient education tools for primary care offices						
Task	Identify existing and/or create necessary resources						
Task	Support dissemination efforts						
<b>Strategy 1C</b>	Create evaluation mechanisms to measure impact of yearlong intervention efforts						
Task	Collaborate with DMMA, CCHS, Nemours, FQHC's, MSD, AAP and DAFP to measure effectiveness of efforts						
<b>Objective 2</b>	<b>Ensure children have a dental home</b>	<b>All children have a dental home</b>	<b>Nemours, CCHS, FQHC's and other providers who are already providing dental home for children</b>	<b>Resources to execute county wide education events</b>	<b>High</b>	<b>Medium</b>	
<b>Strategy 2A</b>	Ensure primary care provider oral health care concludes with referral to dental home						
Task	Provide networking opportunities for medical and dental providers/staff to increase awareness						
Task	Build referral relationships between family medicine practitioners/pediatricians and their own dental referral networks						
<b>Strategy 2B</b>	Develop outreach programs from health care centers, schools, and public health care facilities that locate and place children into a dental facility						
Task	Oral health care coordinators hired at FQHC's to coordinate referrals from primary to dental provider. Explore the potential to connect them with other community organizations						
Task	Work with social services – 211, WIC						
Task	Outreach to home visiting associations						
Task	Collaborate with Oral Health Literacy Action Group and DelTech leaders						

<b>Strategy 2C</b>	Training and promotion needed for general practicing dentists to assure adequate availability of dentists providing year 1 dental examinations						
Task	Outreach to dentists at primary care/dentists networking events to determine gaps and need for additional resources/training						
<b>Objective 3</b>	<b>Disseminate consistent oral health information that is culturally and age sensitive, particularly for early child care programs</b>	<b>Increase awareness, behavior change, knowledge, and disease prevention, and improve school and quality of life</b>	<b>Many resources have are available. Some groups already disseminating or interested in doing so</b>	<b>None identified</b>	<b>Medium</b>	<b>Medium</b>	
<b>Strategy 3A</b>	Coordinate with Oral Health Literacy Group to identify "the" message/best educational materials to educate families with children						
Task	Utilize First Smile Delaware materials						
Task	Invigorate Tooth Troop						
<b>Strategy 3B</b>	Disseminate materials						
Task	Participate in promotion of social media campaign						
Task	Include materials as part of oral health tools shared with primary care providers						
Task	Integrate oral health literacy into Home Visiting Nurse programs						
Task	Share Oral Health information texting						
Task	Connect with key partners						
<b>Strategy 3C</b>	Coordinate with new FQHC dental managers to disseminate message and materials						
Task	Collaborate with all action group partners including FQHC's, CCHS, Nemours, DAFP and AAP						

**Goal: Improve access to oral health care and disease prevention for children.**

	Description:	Person(s) Assigned:	Resources:	Start Date:	Due Date:	Status:	Referred to/from Other Action Group?	Notes:	Status Options:
<b>Strategy 1A</b>	Support, promote and expand physician trainings	All active members engaged in this effort	Additional time and funding necessary	1/1/2016	12/31/2016	On-going			Not Started
Task	Arrange and host three county wide fluoride varnish CME educational events for primary care providers and dentists								In Process
Task	Support on-going training efforts by sharing information and offering networking opportunities								Behind Schedule
<b>Strategy 1B</b>	Have resources/technical assistance available with billing tips, IT support for EMR oral health assessment forms, and patient education tools for primary care offices	Dr. Atkinson has completed some of this.	Additional resources would be needed for dissemination of these resources	1/1/2016	N/A	Unknown			
Task	Identify existing and/or create necessary resources								
Task	Support dissemination efforts								
<b>Strategy 1C</b>	Create evaluation mechanisms to measure impact of yearlong intervention efforts	No one assigned at this time	Additional time and funding necessary	N/A	N/A	Not started			
Task	Collaborate with DMMA, CCHS, Nemours, FQHC's, MSD, AAP and DAFP to measure effectiveness of efforts								
<b>Strategy 2A</b>	Ensure primary care provider oral health care concludes with referral to dental home	No one assigned at this time	Additional time and funding necessary	N/A	N/A	Not started			
Task	Provide networking opportunities for medical and dental providers/staff to increase awareness								
Task	Build referral relationships between family medicine practitioners/pediatricians and their own dental referral networks								
<b>Strategy 2B</b>	Develop outreach programs from health care centers, schools, and public health care facilities that locate and place children into a dental facility	No one assigned at this time	Additional time and funding necessary	N/A	N/A	Not started	AG #3 and #4 doing some of this work		
Task	Oral health care coordinators hired at FQHC's to coordinate referrals from primary to dental provider. Explore the potential to connect them with other community organizations								
Task	Work with social services – 211, WIC								
Task	Outreach to home visiting associations								
Task	Collaborate with Oral Health Literacy Action Group and DelTech leaders								
<b>Strategy 2C</b>	Training and promotion needed for general practicing dentists to assure adequate availability of dentists providing year 1 dental examinations	No one assigned at this time	Additional time and funding necessary	N/A	N/A	Not started			

Task	Outreach to dentists at primary care/dentists networking events to determine gaps and need for additional resources/training							
<b>Strategy 3A</b>	Coordinate with Oral Health Literacy Group to identify “the” message/best educational materials to educate families with children	Katie Hegedus completed some of this by attending all AG meetings. BOHDS also involved.	None identified	Oct-15		On-going		
Task	Utilize First Smile Delaware materials							
Task	Invigorate Tooth Troop							
<b>Strategy 3B</b>	Disseminate materials	BOHDS and DPH	None identified	Oct-15		On-going		
Task	Participate in promotion of social media campaign							
Task	Include materials as part of oral health tools shared with primary care providers							
Task	Integrate oral health literacy into Home Visiting Nurse programs							
Task	Share Oral Health information texting							
Task	Connect with key partners							
<b>Strategy 3C</b>	Coordinate with new FQHC dental managers to disseminate message and materials	BOHDS and DPH	None identified	Oct-15		On-going		
Task	Collaborate with all action group partners including FQHC’s, CCHS, Nemours, DAFP and AAP							

**Goal: Increase the oral health literacy of all Delaware residents.**

G. McClure / V. Rizzo

	Description:	Desired Outcome(s)	Available Resources	Add'l Resources Required	Estimated Impact (low, med, high)	Probability of Success (low, med, high)	Notes:
<b>Objective 1</b>	<b>Develop/Select a united message for all stakeholders to use</b>	<b>Have the right materials and campaigns to increase awareness and knowledge for behavior change, disease prevention and improved quality of life</b>	<b>Many stakeholders engaged and tools developed</b>	<b>None identified at this time</b>	<b>Medium</b>	<b>Medium</b>	
<b>Strategy 1A</b>	Develop and execute an Information Campaign for Age 1 children and their parents						
Task	Share and promote Age 1 campaign efforts						
Task	Promote First Smile Resource Guide and website						
Task	Add oral health to the Child Development Watch First Year calendar						
Task	Text4baby						
Task	Provide fluoride Varnish and dental home education materials for Delaware Oral Health Coalition (DOHC) Children's Action Group and other partners						
Task	Find, develop or expand a comprehensive educational campaign around the importance of oral health for a healthy pregnancy and baby's health						
Task	Incorporate DelTech student presentations including "Have One" and "A Successful Visit" (Explore if there is Maternal and Child Health Bureau (MCHB) grant money for this)						
Task	Explore if MCHB grant money could get materials for pregnant women (from programs in NY and CA)						
Task	YouTube video about Age 1 program from PA / "Connect the Dots" – next stage Train the Trainers (dentists and hygienists for care under age 5) with support of the Dental Society						
<b>Strategy 1B</b>	Promote the usage of the "Oral Health 2014: Delaware, An Oral Health Literacy Strategic Communications Plan" to DOHC stakeholders and partners						
Task	Perform a baseline survey						
Task	Utilize/disseminate messaging and toolkit already developed – continue with existing activities						
Task	Identify key local conferences, events and organizations for speaking engagements						
Task	Identify media partners						
Task	Three pronged focus of Issue-Focused Advocacy, Public Awareness and Professional Integration						
Task	Emphasize link between oral health and overall health; consequences of poor oral health; and providing the "how to" basics for desired oral care behavior						
Task	Develop strong brand strategy						
Task	Work with trusted messengers						
Task	Community Health action group members to help with testing this in the community and then disseminating it to daycare providers, schools, and community groups						
<b>Strategy 1C</b>	Develop a high school Navigation guide - Powerpoint and book						

Task	Del Tech Action Group members to lead this project						
<b>Strategy 1D</b>	Develop an innovative electronic teaching program						
Task	DentaQuest grant to develop a game or app for this						
<b>Objective 2</b>	<b>Create and execute a grassroots campaign to promote oral health for policy makers, stakeholders, and consumers of health care</b>	<b>Disseminated materials and campaign increase awareness and knowledge for behavior change, disease prevention and improved quality of life</b>	<b>Many stakeholders engaged and tools developed</b>	<b>None identified at this time</b>	<b>Medium</b>	<b>Medium</b>	
<b>Strategy 2A</b>	Coordinate with Vulnerable Adults and Partnerships Action Groups to determine materials most needed for policymakers						
Task	Review current legislative agenda and activities						
Task	Identify active partners, what materials they are already using, what additional materials are needed. Collaborate with Vulnerable Adults Action Group						
<b>Strategy 2B</b>	Create a Toolkit for a grassroots campaign, based on slides 13-18 of "Healthy Smiles Healthy You" powerpoint and incorporate the "Evaluation and Oral Health Referral Worksheet".						
Task	Share and promote developed tools, powerpoints, and brochures for this. New "Ah" campaign						
Task	Community Health to share with health educators and other public health personnel						
Task	Provide toolkit to schools, daycares, Grade 3 programs, summer programs, DTCC students (nursing in Stanton						
Task	Fact Sheets housed on DE Thrives (MCHB).						
<b>Strategy 2C</b>	Integrate Oral Health Literacy into tobacco efforts						
Task	Share new materials with Department of Public Health Tobacco Cessation and Prevention program coordinators						
<b>Strategy 2D</b>	Provide information for state initiatives						
Task	Share materials with Affordable Care Act team						
Task	Share toolkit with Delaware Center for Health Innovation (DCHI) community health workers and care coordinators						
<b>Strategy 2E</b>	Create a goal of school wide use of materials or curriculum						
Task	Incorporate "Understanding by Design" and ADA tools						
Task	Building on what Nemours is already doing in the schools (Adolescent Health						
Task	Ensure programs at every stage						
Task	Continue drawing contest						
<b>Strategy 2F</b>	Outreach activities via professional organizations – chapter newsletter and other outreach to AARP, AAP, DAFP, DAPA						
Task	Continued dissemination of Impressions Newsletter						
Task	Provide materials for Children's Action Group county wide primary/dentist education/networking events						
<b>Strategy 2G</b>	Evaluate dissemination of materials at end of the year						
Task	Create and execute evaluation plan						

<b>Objective 3</b>	<b>Disseminate consistent oral health information that is culturally and age sensitive, particularly for early child care programs</b>	<b>Increase awareness and knowledge for behavior change, disease prevention and improved quality of life through materials inclusive of, designed for and delivered to the diverse population of Delaware</b>	<b>Many stakeholders engaged and tools developed</b>	<b>None identified at this time</b>	<b>Medium</b>	<b>Medium</b>	
<b>Strategy 3A</b>	Promote various populations in materials as well as making them bilingual						
Task	Refine and solidify the definition of Delaware's at-risk oral health populations and geographic areas						
Task	Create materials (videos) in English and Spanish						
Task	Collaborate with Westside and LaRed FQHC dental/medical care coordinators						
Task	Include agricultural workers in promotions						
<b>Strategy 3B</b>	Coordinate with DOHC Children's Action Group to see what materials are needed for their efforts						
Task	Share FirstSmile Delaware						
Task	Invigorate Tooth Troop						
Task	Connect the Dots						
<b>Strategy 3C</b>	Disseminate materials						
Task	Include bilingual materials as part of oral health toolkit for PCP's as applicable						
Task	Preschools and daycares beg for presentations. How to do this most effectively? DTCC only has 15 students. Coordinate w/Nemours daycare licensing process (5-star rating). Offer credit? Train the trainers (staff and parents). Tooth Troop – add to websites						
Task	Ensure access of Age 1-5 materials for FQHC dental managers						
<b>Objective 4</b>	<b>Expand existing programs and explore additional opportunities</b>	<b>Increase awareness and knowledge for behavior change, disease prevention and improved quality of life.</b>	<b>Many members engaged and aware</b>	<b>None identified at this time</b>	<b>Medium</b>	<b>Medium</b>	
<b>Strategy 4A</b>	Expand the oral health training for health care profession DTCC students						
Task	Explore possibilities for, or initiate expansion of, program for Stanton nursing students						
<b>Strategy 4B</b>	Expand efforts of oral health pre-service training for Home Visiting						
Task	Explore on-line option for this training						
Task	Collaborate with Advisory Committee						
Task	Include home visitor ambassadors						
<b>Strategy 4C</b>	DTCC host a SuperSealant Saturday						
Task	Implement, promote and expand these events						
<b>Strategy 4D</b>	Partner with childhood service and learning						
Task	Contact Boy and Girl Scout organizations, 4-H (Health Rocks curriculum), FFA, FHA and others to create an OH literacy badge or other certification in recognition of mastery of oral health prevention information and techniques						

Goal: Increase the oral health literacy of all Delaware residents.
