

## Delaware Institute for Dental Education and Research (DIDER)

### Tuition Supplement Program

Through the generosity of the Delaware State Legislature, DIDER will provide funding each academic year for tuition stipends to be divided among the Delaware residents who attend Temple. For the foreseeable future, each student from Delaware will receive, at a minimum, a tuition stipend of \$1,000 per academic year. Any remaining funds will be allocated based on financial need – to be determined using Temple’s financial aid formulas. (Note: to be considered for funds based on need, students must submit the Federal Application For Student Aid (FAFSA) form- [www.fafsa.ed.gov/](http://www.fafsa.ed.gov/). Students will be contacted directly should they qualify for additional tuition assistance. The tuition stipends are guaranteed for four years as long as students remain in good standing with the University and are contingent upon available funding.
