DELAWARE

CostAware

Delaware's State Health Care Costs

An initiative of the
*Delaware Health Care Commission (DHCC) &
Department of Health and Social Services (DHSS)*

October 2024

Utilizing information from the
*Delaware Health Care Claims Database (HCCD) &
CMS quality measures*

AGENDA

-  **About the Initiative**
-  **About the HCCD**
-  **Methodology**
-  **New & Upcoming Features**
-  **Q&A**

CostAware
Delaware's State Health Care Costs

ABOUT THE INITIATIVE

The CostAware website allows DHCC to share information about variation in Cost* and Quality of medical services in Delaware to:

Support initiatives & programs promoting access to high-quality affordable care

Foster collaboration among providers and health plans

Improve health outcomes for Delawareans

**Many factors contribute to health care cost variation including differences in clinical practice, billing practices, contractual relationships, and payment systems used by health insurers.*

[Download PDF](#)

- Overview**
- Medical Claims
- Pharmacy Claims
- Diagnosis Grouping
- HCCD File Summary
- Helpful Resources
- Terms & Definitions

METHODOLOGY

Outlier Values:

- May exist due to incomplete data or human error
- Cell suppression rule
- Impact the accuracy and relevance of average cost estimates

For each service/episode:

- Excluded \$0 claims
- 2.5 % outlier methodology
- Excludes supplemental insurance, dual eligible

METHODOLOGY – DATA ENHANCEMENT TOOL

- MS-DRG-based inpatient “episodes”
- Assigned to hospitals based on billing provider NPI
- Average amount paid reflects all services billed between admission and discharge date
- Assign patient classification for inpatient care, including MS-DRGs and 3M™ All Patient Refined DRG Classification System
- Assign episodes of care and patient health status

WHAT'S NEW ON COSTAWARE?

New cervical cancer & psychoses, enhanced pharmacy reports

Added Medicare FFS & 2022 data, showing results for 2019-2022

Website redesign - dashboards replace individual reports

CERVICAL CANCER SCREENING

Screenings by ZIP

Screened Pops Yearly (Simple)

Year	Received Screening / Screening Status			
	True			False
	Cotested	Cytology Alone	hrHPV alone	None
2017	32,569 29.70%	27,063 24.68%	2,214 2.02%	47,796 43.59%
2018	31,942 31.70%	23,204 23.03%	2,934 2.91%	42,671 42.35%
2019	29,904 34.11%	19,934 22.74%	3,523 4.02%	34,318 39.14%
2020	30,520 31.88%	21,312 22.26%	4,269 4.46%	39,644 41.41%
2021	31,960 30.82%	22,630 21.82%	4,032 3.89%	45,076 43.47%
2022	33,249 28.61%	23,846 20.52%	4,902 4.22%	54,237 46.66%

Screened Population (Map)

% of Population (Charts)

Screening by Healthcare

Insurance Type	Received Screening / Screening Status			
	True			False
	Cotested	Cytology Alone	hrHPV alone	None
Commercial	23.10% 141,767	13.19% 80,944	1.72% 10,584	19.32% 118,547
Medicaid	7.88% 48,372	9.29% 57,045	1.84% 11,290	23.65% 145,174

WHAT'S NEXT?

1. Additional Years of Data

- 2023 expected by end of CY 2024
- 2024 expected September 2025

2. New Development

- Additional public health, quality reporting

3. Other Enhancements

- Add provider names to more reports
- Define physician provider groups for reporting
- Move to more advanced episode grouper, APR-DRG replaces MS-DRG

4. Stakeholder Engagement

Note: CostAware website displays 2019-2021 data; does not include Medicare FFS

ABOUT THE HCCD - OVERVIEW

- The **Health Care Claims Database (HCCD)** is Delaware's All-Payers' Claims Database (**APCD**)
- **What:** A large-scale database that systematically collects healthcare claims (medical and pharmacy), member enrollment and provider data from payers for Delaware residents
- **Purpose:** To facilitate data-driven, evidence-based improvements in access, quality, and cost of healthcare and to promote and improve the public health through increased transparency of accurate claims data and information.
- **Goals:**
 - Provide meaningful data to advance triple aim of improved population health, quality of care, and lower costs
 - Promote population health research and analysis
 - Promote value-based and alternative payment arrangements
 - Support provider risk-sharing arrangements
- **Authorized July 2016:** [SB 238](#) for Delaware Health Information Network to develop and operate Delaware's Health Care Claims database (HCCD)

SELECTION OF SERVICES

Common medical services provided to large numbers of patients

Of interest to consumers because they are "shoppable"

Reflect DHSS input and policy priorities

Claim volume in the HCCD is adequate to support public reporting

Often included in other state All-Payer Claims Database (APCD) websites

Focus on services without complications to reflect typical experience

ABOUT THE HCCD – DATA PREPARATION

Staging

- Check for file integrity
- Compare counts
- Processing viability

Level 1

- Specification compliance
- Data type
- Format
- Length
- % Completed
- Orphan claims

Versioning

- Master Data Management
- Collapse multiple versions of claim
- Medical
- Pharmacy

Level 2

- Descriptive statistics
- Distribution comparisons
- Validation of critical reporting elements
- State comparisons

Enhancements

- EID
- Age groups
- Care settings
- Service lines
- Address parser
- Census tract
- Risk adjustment
- Attribution
- MS DRG grouper
- HealthPartners

Validation and Standardization

METHODOLOGY

Services

- Claims identified based on CPT codes
- Average amount paid calculated by service/payer type
- Assigned to billing providers based on NPIs

Imaging Reports

- DE Residents
- Service Location: Delaware
- Included all facilities with professional charges
- No filter on modifiers
- Professional hospital outpatient fees have been removed – if charged after the day of service
