Our Team

Planning Logistics

- How often should we meet, when, with whom?
- What is the preferred deliverable review process?
- What are DOI policies for internal and external communications?
- What are DOI policies for DHIN data exchange?
- What is the cadence of PCRC and DEFAC meetings? How do materials for these meetings typically get sent out and reviewed?
- Which meetings follow public meeting procedures? What are these procedures (i.e. posting materials/notes on a website, etc.)?
- Are there standing calls between DOI and insurers? Would VBHC participate in those? How do we best leverage those relationships?
