

MDS 3.0 Training

Day one workshop October 8th, 2019 for the Beginner

- Audience
 - Nurse Assessment Coordinator (NAC) and State Surveyor
 - Participants who have less than one-year experience: data collecting, assessing, implementing and evaluating quality of care and services regarding patient specific strengths and needs.

- Objectives:
 - Instill a fundamental understanding of the requirements to complete the MDS.
 - Ability to interpret and implement the regulatory requirements of the RAI manual when planning for the care and services provided to the resident population.
 - Enhance the on-boarding/training process for NACs and State Surveyors who are coding and or evaluating the accuracy and competency of the NAC.
