The Medicaid Agency may elect to restrict the disenrollment rights of Medicaid enrollees of certain Federally qualified HMOs, Competitive Medical Plans (CMPs) with Medicare contracts under section 1876 of the Act, and other organizations described in 42 CFR 434.27(d), in accordance with the regulations at 42 CFR 434.27. Method for Determining Cost Effectiveness of Caring for  
Certain Disabled Children At Home

At the time of application and redetermination of eligibility for the Disabled Children's Program, cost of care is verified and then compared to the cost of care in the type of facility from which the child is being diverted. A level of care is determined by Medicaid's Medical Review Team. If the child is in need of intermediate, skilled, or super-skilled care, the cost of care at home is compared to the Delaware Medicaid pediatric long-term care rates. The home care cost for children diverted from acute hospitalization is compared to the per diem rates paid to the local pediatric hospital.
