Welcome to the Directory of Human Services for Delaware 2015, the eighteenth edition of the Directory which is published by the Division of State Service Centers.

The Directory offers a comprehensive listing of the many human service programs within the state of Delaware. This edition expands on previous editions and includes more agencies, phone numbers, and web sites than ever before.

The keys to using this book are the Alphabetical and Subject Indices. Each agency and program is listed in the Alphabetical Index as well as in the Subject Index under each major service provided. In the 2015 edition, each agency is listed with all of the relevant locations throughout the state. Each entry provides a brief description of services, all agency office addresses, contact information, as well as the areas served throughout the state. Service locations and areas identified pertain exclusively to Delaware, even though some agencies may provide services outside the State. The format and organization of the information has been designed to be easy to read and easy to use as you work with clients and/or other agencies.

Suggestions or comments about this Directory should be forwarded to:

SERVICE DESCRIPTION: Communities In Schools is a nationwide organization whose mission is to surround students with a community of support, and empower them to stay in school and achieve in life. Delaware’s youth are dropping out of school in record numbers, and gaps in student performance among low-income and minority students continue to widen. In the wake of a call to action by educators, business leaders, and government officials, attention on these issues has generally focused on (and been limited to) academic issues. In schools throughout Delaware, organizations provide community-based, integrated student services as a way to help at-risk students—and their schools—succeed. These services, ranging from providing mentors to meeting health and counseling needs, vary by student, but by definition are systemically linked to school-based efforts to meet the health, safety and counseling needs of at-risk youth.
