Topic X: Program Integrity

Number	Indicator	Response
BX.1	**Payment risks between the state and plans** Describe service-specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify, address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities. If no PI activities were performed, enter 'No PI activities were performed during the reporting period' as your response. 'N/A' is not an acceptable response.	Chiropractor reviews, Unified Program Integrity Contractor (UPIC) reviews, FWA data mining and analysis with focus on applied behavioral analysis (ABA) and substance abuse disorder (SUD) Services
BX.2	**Contract standard for overpayments** Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.	State requires the return of overpayments
BX.3	**Location of contract provision stating overpayment standard** Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i).	3.16.5.1
BX.4	**Description of overpayment contract standard** Briefly describe the overpayment standard (for example, details on whether the state allows plans to retain overpayments, requires the plans to return overpayments, or administers a hybrid system) selected in indicator B.X.2.	In accordance with 42 CFR 438.608, the Contractor shall require and have a mechanism for participating providers to report overpayments, return the overpayment within 60 calendar days of identifying the overpayment, and notify the Contractor in writing of the reason for the overpayment.
BX.5	**State overpayment reporting monitoring**	Program Integrity team uses an Excel spreadsheet to track overpayments by age.

Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting?

The regulations at 438.604(a)(7), 608(a)(2) and 608(a)(3) require plan reporting to the state on various overpayment topics (whether annually or promptly). This indicator is asking the state how it monitors that reporting.

BX.6	**Changes in beneficiary circumstances** Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees experiencing a change in status (e.g., incarcerated, deceased, switching plans).	DMES is automated to implement Delaware's policy around timely and accurate reconciliation of enrollment through monthly eligibility reconciliation process, managed care pre-assignment, managed care enrollment and managed care disenrollment processes. 834 x12 transactions are sent daily and monthly to the MCOs. Capitations are created monthly and sent via 820x12 transactions to the MCOs. Appropriate MCO payments can be found in the monthly 820x12 file. The 820 file is a monthly capitation payment file that supplies the MCOs with the capitation summary for the members that are enrolled with the MCO. Accurate information for the member's Managed Care enrollment can be found in the change/termination section of the monthly 834 file. The monthly 834 file supplies the MCOs with prospective member enrollments. For example, if the member is incarcerated the member would have an INCAR segment in the roster section of the monthly 834 file.
BX.7a	**Changes in provider circumstances: Monitoring plans** Does the state monitor whether plans report provider "for cause" terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.	Yes
BX.7b	**Changes in provider circumstances: Metrics** Does the state use a metric or indicator to assess plan reporting performance? Select one.	Yes

BX.7c	**Changes in provider circumstances: Describe metric** Describe the metric or indicator that the state uses.	The Contractor shall notify the State of any provider termination, providing documentation of the provider's name, NPI, State assigned provider identification number, and the number of members affected within five business days of the provider's termination.
BX.8a	**Federal database checks: Excluded person or entities** During the state's federal database checks, did the state find any person or entity excluded? Select one. Consistent with the requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through routine checks of Federal databases.	Yes
BX.8b	**Federal database checks: Summarize instances of exclusion** Summarize the instances and whether the entity was notified as required in 438.602(d). Report actions taken, such as plan-level sanctions and corrective actions.	All found excluded providers are added to the sanctions list. Those that were registered in the DE program were terminated and MCOs were ordered to also terminate relationships. MCOs report confirmation of termination, when applicable.
BX.9a	**Website posting of 5 percent or more ownership control** Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).	No
BX.10	**Periodic audits** If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans,	No

provide the link(s) to the audit results. Refer to 42 CFR 438.602(e). If no audits were conducted, please enter 'No such audits were conducted during the reporting year' as your response. 'N/A' is not an acceptable response.

C1III.6	**Barriers to collecting/validating encounter data**	The state is aware of all encounters sent to the MMIS, however there is an ongoing challenge with accepting encounters through gate 2 based on specificity of provider identifying information and matching criteria (i.e., Street/St., Avenue/Ave., etc.).
	Describe any barriers to collecting and/or validating managed care plan encounter data that the state has experienced during the reporting year. If there were no barriers, please enter 'The state did not experience any barriers to collecting or validating encounter data during the reporting year' as your response. 'N/A' is not an acceptable response.	

Topic IV. Appeals, State Fair Hearings & Grievances

Access Measures

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

If the managed care plan does not cover LTSS, enter "N/A". Also, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, enter "N/A". The appeal and critical incident do not have to have been "related" to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the appeal need to have been filed in relation to delivery of LTSS — they may have been filed for any reason, related to any service received (or desired) by an LTSS user. To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed an appeal during the reporting year, and whether the filing of the appeal preceded the filing of the critical incident.	22 **Delaware First Health** 0

Neither the critical incident nor the grievance need to have been filed in relation to delivery of LTSS - they may have been filed for any reason, related to any service received (or desired) by an LTSS user.

If the managed care plan does not cover LTSS, the state should enter "N/A" in this field. Additionally, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, the state can enter "N/A" in this field.

To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed a grievance during the reporting year, and whether the filing of the grievance preceded the filing of the critical incident.
