AGENDA

Purpose: The Delaware Health Care Commission (DHCC) Retreat will bring together a diverse group of stakeholders including but not limited to members of the Delaware General Assembly, health systems, public health and health care stakeholders, policy makers, state officials, and regulators to discuss policy and legislative initiatives for the 2026 legislative session. The Retreat will focus on the quadruple aim: improving access, enhancing quality of care, supporting provider well-being, all at a reasonable cost. Each session will highlight the progress that the state has made in each of these areas and discuss future policy and legislation that the DHCC can support with the stakeholders and clinical and community partners to achieve the quadruple aim.

Objectives:
