SECTION	STATEMENT OF DEFICIENCIES SPECIFIC DEFICIENCIES	ADMINISTRATOR'S PLAN FOR CORRECTION OF DEFICIENCIES WITH ANTICIPATED DATES TO BE CORRECTED	Completion Date
3225	<p>An unannounced Complaint survey was conducted at this facility from November 20, 2025, through November 24, 2025. The deficiencies contained in this report are based on observations, interview, record review and review of other facility documentation as indicated. The facility census on the first day of the survey was forty (40). The survey sample totaled three (3) residents.</p> <p><b>Assisted Living Facilities</b></p> <p>Abbreviations/definitions used in this state report are as follows:</p> <p>BIMS (Brief Interview for Mental Status) – assessment of the resident's mental status. The total possible BIMS Score ranges from 0 to 15; 0-7: Severe impairment (decisions rarely/never made); 8-12: Moderately impaired; 13-15: Cognitively intact;</p> <p>CNA- Certified Nursing Assistant;</p> <p>DAL – Director of Assisted Living;</p> <p>DPM - Director of Property Management;</p> <p>Elopement – an unauthorized and unsupervised departure of a patient from a care setting;</p> <p>ED – Executive Director;</p> <p>LPN – Licensed Practical Nurse;</p> <p>NHA - Nursing Home Administrator;</p>	<p>R1 POC</p> <ol style="list-style-type: none"><li>1. R1 no longer resides in the unsecured area of AL. R1 was sent to the hospital for evaluation on 9/13/25 when the event occurred with no injury. Resident was discharged to her daughter's home on 9/14/25. R1 was admitted to SNF on 9/25/25 from daughter's home. R1 was admitted to the secured memory AL area on 10/31/025 from the SNF. A root cause analysis was conducted and involved a review of the cognitive assessment process.</li><li>2. New admissions from 11/10/25 to present were reviewed on 11/23/25 for cognitive status. The results of the BIMS score were intact cognition.</li><li>3. A BIMS will be completed for new admissions on the day of admission by the admitting RN. Results will be reviewed with the interdisciplinary team. Determination will be made by the interdisciplinary team if their cognition is appropriate to reside in general AL. Education was provided by NHA to RNs performing UAIs to assess cognition and complete a BIMS. Education was completed on 11/22/25.</li><li>4. Admission records will be audited by the DAL withing 48 hours after admission to ensure completion of BIMS and appropriate cognitive status to reside in general AL. All audit results will be brought to quarterly QAPI meeting. Threshold for compliance is 100 %. If 100% compliance is reached for a 60-day period, the</li></ol>	Completed 11/23/25

3225.19.7.5.2  Title 16 Health and Safety Chapter 11 Long Term Care Facilities and services Sub- chapter III.  S/S – J	<p>Any circumstance in which a cognitively impaired resident, whose whereabouts are unknown to staff, exits the facility.</p> <p><b>Abuse, Neglect, Mistreatment, financial Exploitation, or Medication Diversion of Patients or Residents.</b></p> <p><b>1131. Definitions</b></p> <p><b>(12) "Neglect" means the failure to provide goods and services necessary to avoid physical harm, mental anguish, or mental illness. Neglect includes all of the following:</b></p> <p><b>a. Lack of attention to physical needs of the patient or resident including toileting, bathing, meals, and safety.</b></p> <p>Based on observation, interview, record review and other facility documentation it was determined that for two (R1 and R2) out of three (3) residents reviewed for neglect, the facility failed to ensure that R1 and R2 did not leave the building unsupervised. This failure put the residents at immediate jeopardy and risk of a serious adverse outcome. R1, a severely cognitively impaired resident, was able to elope from the Assisted Living section of the facility on to the parking lot on 9/13/25 at 7:50 PM. R2, a severely cognitive impaired resident, was able to elope from the locked Memory Care section of the facility on to the parking lot on 11/7/25 at 12:48 PM and again on 11/9/25 at 7:45 AM. An immediate jeopardy (IJ) was identified starting on 11/21/25 at 11:00 AM, with an abatement date of 11/21/25 at 5:00 PM. Findings include:</p>	<p>11/21/25-11/24/25 at 10:00 am. If 100% compliant with locking, decrease audit to every 4 hours until 11/27/25. If 100% compliant then audit locks every shift going forward. Audit cycle will not progress until 100% compliance has been reached at each level. Pager function will be audited by nurse or designee every shift ongoing. Any issues will be reported immediately to the nurse supervisor and addressed. Threshold for compliance is 100%. The QAPI committee will review all audits for compliance. If a threshold of 100% is not achieved, a QAPI plan will be required to be submitted to the QAPI committee by the DAL. The QAPI committee will monitor compliance and make recommendations based upon outcomes.</p>

	<p>if there was a staff member stationed at the door to ensure that the residents did not exit the door. E1 stated, "I told the staff to check on the resident so they can know where she was. I was told that [R2] had exited the building on 11/9/25. I told the staff to check on her every 30 minutes and monitor the door. I even monitored the door myself. Stop signs were placed on the inside of the door. I called E1 (NHA) and updated her on the situation."</p> <p>11/20/25 3:00 PM – During an interview, E1 stated, "I called [E3 ED] and notified him about the concerns about the door and maintenance not being able to fix them. E3 spoke with E5 and was told that it was the fire code and could not be bypassed. On 11/10/25, I identified issues with the 15 second egress bypass not functioning properly and the door box alarm sounding too softly. I also tested the pagers and found that the door alarm was not alarming [communicating] with them consistently. The alarm box outside of the main exit door was tested with the wander guard and it was alarming properly. The issues were reported to E3 and E5. E5 reached out to [name of the door installation company] and they were not available to come out right away. The lock was adjusted a little further to see if it would help per the door company recommendations. New pagers were ordered, and the door was continuously monitored by the staff. On 11/14/25, the 15 seconds egress was turned off, and a new box/alarm was installed on the door. The new alarm now sounds loudly when it is triggered. There have not been any other</p>

**NAME OF FACILITY:** Oakbridge Terrace at Cokesbury Village

**DATE SURVEY COMPLETED:** November 24, 2025

SECTION	STATEMENT OF DEFICIENCIES SPECIFIC DEFICIENCIES	ADMINISTRATOR'S PLAN FOR CORRECTION OF DEFICIENCIES WITH ANTICIPATED DATES TO BE CORRECTED	Completion Date
	<p>closely after her confusion worsened. E2 stated, "AL [assisted living] residents are not monitored on a 1:1 and allowed to go out. They are required to sign out before they leave." The Surveyor then asked E2 if R1, who has dementia, is documented as AOx1 and does not know the date or where she is, had the ability to sign out, leave and return to the facility. E2 stated, "We have residents in assisted living that have dementia that are able to go out and return with no problem."</p> <p>11/21/25 12:00 PM – An immediate jeopardy (IJ) was called due to the facility's failure to accurately assess and supervise R1 after it was documented that R1 displayed elopement behaviors, was at high risk for wandering, was found wandering in the facility by a visitor and had repeated incidents of confusion and cognitive impairment. The facility's lack of supervision resulted in R1's elopement outside of the facility into the parking lot where she was found after sustaining a fall.</p> <p>11/24/25 9:00 AM – Based on the Surveyor's review of the facility's investigation, staff interviews and resident audits completed from 11/21/25 to 11/24/25, the IJ was considered abated on 11/21/25 at 5:00 PM.</p> <p>The facility's corrective actions included:</p> <ul style="list-style-type: none"><li>- Residents assessed before admission that are only oriented to self will not be admitted to the assisted living facility and instead will be admitted to the skilled nursing unit</li></ul>
